To use this project requires Netbeans 12.5 or higher and OpenJDK 13 or higher

The necessary libraries are located in the lib folder, inside the project folder

The general structure of the project is shown in figure 1

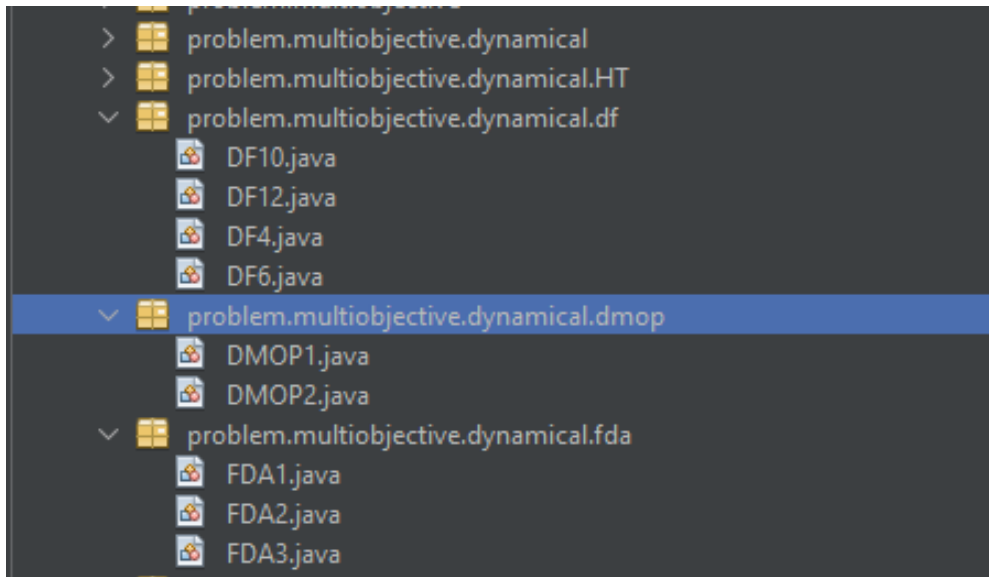

Figure 1. general structure of the Project

Adaptive dynamic algorithms

The DMOEA/D-SL and DMOEA/D-TAOS algorithms are found in the **algorithm.multiobjective.dynamical.dmoead** package.

Dynamic testing problems

The dynamic test problems are found in the **problem.multiobjective.dynamical** package.

Execution example file

The file with the example of the execution of the two algorithms is found in the **experimentation.multiobjective.dynamical** package. The class is called MainRL_DMOEA_D_SL.
